

## Overcast

### "Human Equality"

Visit "[Human Equality](#)" on MotoLyrics.com

Complain about everything that we have to say  
Equality is preached from every band  
When your not like us it's okay to change your stand.  
You wouldn't risk hurting your reputation  
To come and talk to me. So your run your mouth  
Like you know what we're about. Never willing to sit  
And work things out.  
I should not have expected any more from you.  
I thought equality is something that you knew.  
I have given out more chances than what was due.  
I will think again before I trust you.  
HUMAN.
