"I Rise Above"

Visit "[I Rise Above](#)" on MotoLyrics.com

I rise above the futile words of enemies attempts to alter
to my cause
I rise above
I rise above the actions of demons attempts to destroy
my spirit
I rise above
No force could change the way I feel
No wind could kill my flame
Your words will only build my spirit
Till death will I stand in Jesus' name
I will not think this over twice
I have the power of the true risen Christ
And I will not fear the face of death
For I know that my enemies shall not triumph over (me).
