### "If I Could"

Visit "[If I Could](#)" on [MotoLyrics.com](https://MotoLyrics.com)

Stars are in the sky, make me feel that I can fly  
Knowing who YOU are, no matter how far  
Standing here so high, hoping that you'd pass me by  
I'm caught up in your mind, end up in your time

Reff:

If I could I'd be your guide  
If I would I'd be your light  
If I should I'd be yours forever ever and Evermore I'd  
be

Bridge:

I know that I can't be the perfect man for you  
But still you take me and you never let me go  
Take this life for You and let me be the one to give my  
life for You

Coda:

Waiting for your call, Living in Your Light, Arrested by  
your Love and Now...  
I'm standing here so high, it makes me feel that I can  
fly, knowing who You are
