"Pride Before Fall"

Visit "[Pride Before Fall](#)" on MotoLyrics.com

This idol you bow to on your knees
Give the glory to a world philosophy
Deny the price your God paid
Put the power of God in a cage
I sense your need to justify your choice
I hear the discontentment in your voice
God sees you put his word up on your shelf
To use the answers of this world to offer help
Betrayed for pride
Your pride before a fall
You betrayed him for pride
Too caught up in labels you use to hide
You betrayed him for pride
Too caught up in labels you use to hide
You betrayed him for pride
Too proud to lose labels from your life
