I live in your eyes
The dark side of your mind
I'm a mistake of society
To live, to kill and to die
Contempt, indifference - It's what I feel
Madness, violence - It's what I think
Desire and frenzy - It's all I want

You're weak you fool
I don't need your dull laws
Who wants your foolish laws?

[Chorus:]
You can't lie to me
Cause in this game I make the rules
You can't seduce me
Cause in this war I crush you

You pray for your soul
But you can't clean your bloody hands
You lie to yourself
While I choose what I am
Fraternity and harmony - These are bullshit
The law of the jungle - Controls men
The power is above ? Life and death

[Chorus]
