### "Pride Before A Fall"

this idol you bow to on your knees  
give the glory to a world philosophy  
deny the price your God paid  
put the power of God in a cage  
I sense your need to justify your choice  
I hear the discontentment in your voice  
God sees you put his word up on your shelf

to use the answers of this world to offer help  
betrayed for pride  
your pride before a fall  
you betrayed him for pride  
to caught up in labels you use to hide  
you betrayed him for pride  
too caught up in labels you use to hide  
you betrayed him for pride  
too proud to lose labels from your life
