Children of the War
They Live to Fight
Patrolling the Streets
Ready to Strike
Defending their countries
With blood and Pride
Attacking the troops
Learning to survive

[Chorus:]

They're Children they're warriors
Dreaming with peace, no fear of death
A painful deep mark lives in their hearts
Made by this war they'll never forget
They're victims of men that for a long time
Just want to kill
If men love war fuck all of them
But don't let kid's peace be stolen

As they're children
Love is in their minds
But they'll never know
The reason why
Living at the war
Air is full of death
Shooting and killing
Till the last breath

[Chorus]

Oh lord of this world
Show them just one place
A place to really live
With peace and no more hate
And all this foolish war
Won't be finished evermore
And so many kids
To fight will be born

We're killing each other
Time is passing by
(Who knows) Peace can rule one day

And take all the pain away

There is still just one hope
The future in your hands
Bless all the children
