When going through bad times
And you can't see a light
Shining down at the end of this long road of life
You can't wait for a helping hand
Cause they don't give a damn
It's a jungle we're living a survival game

It's up to you
To make your dream come true

[Chorus:]

We, we have to fight for our dreams
And build a world we believe in
To win the hardest game
Be yourself and just try to do the best you can

Maybe we'd believe in fate
But it's never too late
We must try to change it and pave our own way
Searching for our wasted years
We've found joy we've found tears
We'll keep fighting till our dreams become real

It's up to you
To make our dreams come true

You've expected too much from this world
Come on, stand up and fight for your dreams

[Chorus]
