I was born in a gutter in the streets
Nobody wanted me, mamma threw me away
A reformatory took me and brought me up
I got a number and I met my thousand mates

[Bridge 1:]

Trying to survive, I only stole to eat
Running for my life - It was a crime
Nowhere to hide - No one to believe
Caught by the Pigs - I lost my pride

[Chorus:]

My hell is here - Your heaven is there
I haven't learned how to pray
What is good for you is not good for me
So get out of my way

Living in jail, rage keeps growing inside
Rehabilitation was the word they used to say
I should be fixed but I lost my faith and mind
Now I don't care cause I got nothing to lose

[Bridge 2:]

Ready to die - No wife - No kids - No friends
Gambling with life - Come on and fight!
Reigning at night, I hunt you just for fun
Only to kill time I take your life

[Chorus]

[Bridge 1]
