When we were born
A prompt world we found
Rules 'n' laws
In a big strong wall
In the name of progress Â– They say Â– So sure
We're going ahead
Don't call into question - Accept Â– This way
Just think as I think

But I lost my hope and faith
Because I learned
Among the hunger and misery
So many wars... Why?
I'm going to tell you about

[Chorus:]
Progress of decadence
Intolerance
Spreading the hate
Discharge of our aggression
Instinctive action
Primitive end

Opposite sites
Of the same coin
Rising together
In A dangerous game
Social disaster - Moral - Decay - Destruction of it all
Wait for the right time Â– To show Â– The face of
hypocrisy

You fucking money cannot save
The failed men
You can try but you can't get
Away from your fate... Why?
I'm gonna tell you about

[Chorus]
