[Chorus:]

"Let's get together
We're all very strong
Just like music
Like some chords
In a song
No more we'll stay alone
United we'll be one"

There he was standing all alone in the night
An old man preaching some words of love
Some words of life
"There will be there a brand new day
Listen to what I have to say"
Everybody

[Chorus]

That sound was coming right through my ears
Deep in my soul touching my heart
Drying my tears
"You gotta learn first for then to teach
So listen to this forgotten preach"
And he was saying...

[Chorus]
