Mechanical arms  
Mechanical legs  
Computer brain  
Radio control  
Circuits to last  
Programmed to kill  
Steel and blood  
Servo equipped  
Hunt you down  
Crush your head  
Power energy  
Digital thoughts  
Made to kill  
Kill so fast  
Future warrior made to last  
Now my mind controls his mind  
By controlling his mind by thoughts  
Have no feeling  
He gives you pain  
Optic eye  
Ready to see  
Power weapon  
Kill for my needs  
Tears don't touch him  
Tears will kill you  
Searching for humans  
Never give up  
High technology  
Battle equipped  
Made to kill  
Kill so fast  
Future warrior made to last  
Now my mind control his mind  
I control his mind by thoughts
