### "Infinity (Journey 1)"

Visit "[Infinity \(Journey 1\)](#)" on MotoLyrics.com

Inside me my power  
My body's getting weaker  
Brain stops to function  
Replace with a machine  
Send me to nothing  
A place I have never been  
This is my next stop  
Insecure I feel  
Now my journey starts  
Heading to the fourth dimension  
Computer in my brain  
Controlling all my moves  
Incomplete infinity  
This is what my life shall be  
Incomplete infinity  
All this pain all this hate  
There's no turning back for me  
Brainwaves floating around me in space  
Beyond all sense and intelligence I am  
Now I feel power  
The temperature is rising  
New age to enter  
Technology is power  
Heading for more truth  
Heading for perfection  
Pain that hurts me  
It only makes me stronger
