"Infinity"

Inside me my power
My body's getting weaker
Brain stops to function
Replace with a machine
Send me to nothing
A place I have never been
This is my next stop
Insecure I feel
Now my journey starts
Heading to the fourth dimension
Computer in my brain
Controlling all my moves
Incomplete infinity
This is what my life shall be
Incomplete infinity
All this pain all this hate
There's no turning back for me
Brainwaves floating around me in space
Beyond all sense and intelligence I am
Now I feel power
The temperature is rising

New age to enter

Technology is power

Heading for more truth

Heading for perfection

Pain that hurts me

It only makes me stronger
