Land beyond a place we want
A place free from salvation
War and pain and despair
A child with perfect mutation
Life in the mist
Pure radiation
Land beyond
Heaven no longer exists
No longer exists
Help me to set me free
Take me there so I can see
A place that we all could die
Take me to land beyond
Land beyond a place we want
A place free from salvation
War and pain and despair
A child with perfect mutation
Life in the mist
Pure radiation
Land beyond
Heaven no longer exists
No longer exists
