Visit "[Life Converter](#)" on MotoLyrics.com

Life is changing
To strange environment
Our analogue world is now
Turning to digital place
To live is to die
Technology starts to conquer
Even in your mind
Integrated circuits
Computerized souls
Activate my life converter
All life is gone
Perfect humans everywhere
Kill the weak
To make them stronger
Transfer this message so we can see all weakness die
Program my computer
To a station far beyond
Spreading out this message
So that everyone shall know
Killing all the weakness
Spreading hate and terror
Evil crosses my mind
Everyone shall die
End of line
To live is to die
Technology starts to conquer
Even in our mind
Integrated circuits
Program my computer
To a station far beyond
Spreading out this message
So that everyone shall know
Kill the weak
To make them stronger
Transfer this message
So we can see weakness die
