"Nuclear Winter"

Visit "[Nuclear Winter](#)" on MotoLyrics.com

Land of darkness
Land of fear
Death among us
Death is real
Radiation in your veins
Nuclear winter causes the pain
The strongest survive in this land
The strongest
Buried your life in the sand
You should always be
The strongest one
You should always kill everyone
The sun that gives us life is gone
We should live but not everyone
We have waited for this moment
Nuclear winter is real
You give us life
You kill the weak
Please give us the world
The darkness shall always be
Kill to live
Kill yourself
Solution is to save yourself
If you're not too strong to live
The radiation is here to kill
Let this be your lesson
Let this be
Your punishment
You can feel this pain
You can feel this hate
But you can also feel
That this is your fate
You must realize
That this is your way
