I create this message
To send in time
About the evolution
About the human race
Prepare now for the
Future
Prepare now for the
Evolution
Computers will run
Technology will rise
Digital genetic birth
Will create another
Race
Machines getting
Stronger
The future is here
The evolution
The mass construction
The power mind
The lower race
The last sentence
The final command
The evolution
Prepare now for the
Funeral
Wait now for your call
Wait and think it over
Are you strong enough
