Verse:

It seems so real but so impossible  
I walked on streets paved with hate  
Pain and ridicule surround me  
I'm glad now that I'm awake

Chorus:

I Woke up today and I see that now my  
Pain has slipped away I can tell that this is  
Now a different place and I'll find you now that  
I woke up today

Verse:

You've been gone for a lifetime  
But now you're here beside me again  
The past now seems like a bad dream  
And not like the paradise that we're in

Bridge:

I thought that heaven was the place of my dreams  
But now it's the opposite, so it seems
