Verse:

I feel that this could be
The perfect chance for me
To show them who I turn to
See you through me

Chorus:

All I want is to be real
All You want it to be near
All they want is what they see
Let them see you in me

Verse:

I wish that they could see
The deeper side to me
And I pray that you'll shine through
See You through me

Bridge:

I see what
I see what you can do through me
I feel that
I feel that that you could sing through me
