Until it radiates all over me
I'll come over unstrung
I'll wait for your insecure states
Lured by confusion sundering my heart

The luminous beam I figure
Appears distant from feat
From flesh to purple sky
And I can't choose so fast

Do you care for me ?
Passion and concrete
When music comes to fear
Do you dare trying it ?

I dare you taking me on
With blinding new love

Try me... Try me... Try me... Try me...

Try me... Try me...
