Electrical sunrises scold the landscape  
Neutron pillars support the gray  
Metallic leaders all giving orders  
All mankind must obey  
Oh, Mister Computer, program me right  
So I may be the last man to turn out the fucking lights  
Fallout clouds you know they fill the air  
Radium rain still shines clear  
Metal war lords as gods we fear  
Wails of sorrow pierce the ear

Oh, Mister Computer, program me right  
So I may be the last man to turn out the fucking lights

[Guitar solo]

Acid pools of toxic wastes  
Hold mankind God's one disgrace  
We wreak of poison, gaseous fumes  
Haunts us here in our stainless steel rooms

Oh, Mister Computer, program me right  
So I may be the last man to turn out the fucking lights

Hear my Metallic Madness, it's my Metallic Madness  
Hear my Metallic Madness, it's my Metallic Madness  
Hear my Metallic Madness, it's my Metallic Madness  
(turn out the lights\_\_\_)  
Hear my Metallic Madness, it's my Metallic Madness  
(turn out the lights\_\_\_)  
Turn 'em out, turn 'em out!
