Long ago, where clouds are lined with gold
There lived a King, whose realm was good and all was
well

His castle was among the star of the Parthenon
His Queen and princess were all he did pride

Come to Starcastle, the people said
The King is Jude, his rule is good
Where all is just, and truth is right

Starcastle [3x]

Jude's guard of knights, all pure at heart
Helped Jude keep his kingdom right

The King's adviser, who helped Jude rule
The faithful Wizard, who's name was Saraphin

Come to Starcastle, the people said
The King is Jude, his rule is good
Where all is just, and truth is right

Starcastle [3x]

But in the world, there is a force
That tries to undo good
And many men, though good at heart
Let evil enter their minds...

Come to Starcastle, the people say
The King is Jude, his rule is good
But something's wrong in the wizard's mind

Starcastle [x3]
