

# Overthrow "Misguided"

Visit "[Misguided](#)" on MotoLyrics.com

We have the power but are reluctant to use it  
As long as we're kept secure, thinking we're in control  
We'll keep looking for happiness, not knowing it's right  
under our nose  
It's time to open up our eyes and realize what we can  
actualize

So lets break whats been given to us and rise to the top

Do away with that was then and cone to terms with what  
is now  
Re-evaluate, where we stand  
And make a change, reform your values.

Stop the indoctrinations instilled for generations  
So lets stop the hyped-up bullshit  
(and) put some actions behind the words.
