

Overthrow "Resistance"

Visit "[Resistance](#)" on MotoLyrics.com

We can win the war with resistance
An unstoppable force with persistence
We're ready to fight and we're ready to bleed
So stand on your feet or die on your knees

It's something they will never fucking understand
Attack or be enslaved in their land
We're ready to fight and we're ready to bleed

So stand on your feet or die on your knees

We have to stand up and unite as one and fight the war
(x2)
Stand up, unite and fight the:war

We will stand and be free
You will face, your time is short
