

## Overthrow "State Control"

Visit "[State Control](#)" on MotoLyrics.com

Freedom, it's a blatant lie, forced into a planned  
mindset  
Working, till' the day you die, never going to get what  
you want to get  
Installed ideals, keep us all in check  
American dream, the notions incorrect  
Living your life out of systemic debt, I owe this system  
nothing

State control is on the attack, propaganda hides the  
facts

State control is on the attack, take it back you gotta  
take it back. Take it back (x2)

We're gonna take it down (x4)  
Lost it all, got nothing left  
Chained confined, won't die in debt  
False ideals, keep us in check  
Stare control, our cause of death.
