### "Nothing Else Matters"

Visit "[Nothing Else Matters](#)" on [MotoLyrics.com](http://MotoLyrics.com)

From the way she wears her hair,  
To the polish on her feet,  
I know she's what I need.  
And everywhere I go,  
I can't help but let it show, I'm in love.

Oh no no,  
My world keeps spinning going round and round  
Girl I'm just sitting trying to figure out,  
What I'm to do cause I'm just passing time,  
You're all I've got on my mind.

So I forget what I gotta do,  
Cause nothing else matters when I'm with you.  
All the money in the world just won't do,  
Cause your love is priceless girl,  
And nothing else matters but you.

No, no nothing else matters,  
No, no nothing else matters,  
No, no nothing else matters,  
Nothing else matters but you.

You got me smilin while I'm sitting at work,  
Cause I love the way you wear my shirt,  
It's the things you do girl.  
Please don't wake me up if this is a dream,  
Just let me sleep.

Oh, my world keeps spinning going round and round  
Girl I'm just sitting trying to figure out,  
What I'm to do cause I'm just passing time,  
You're all I've got on my mind.

So I forget what I gotta do,  
Cause nothing else matters when I'm with you.  
All the money in the world just won't do,  
Cause your love is priceless girl,  
And nothing else matters but you.

No, no nothing else matters,

No, no nothing else matters,  
No, no nothing else matters,  
Nothing else matters but you.

Okay okay, what'd she say?  
It don't even matter cause I got my baby.  
And all the bills paid, hey, hey,  
But it don't even matter if I got my baby.  
Okay okay, what'd she say?  
It don't even matter cause I got my baby.  
And all the pills paid, hey, hey,  
But it don't even matter.

So I forget what I gotta do,  
Cause nothing else matters when I'm with you.  
All the money in the world just won't do,  
Cause your love is priceless girl,  
And nothing else matters but you.

No, no nothing else matters,  
No, no nothing else matters,  
No, no nothing else matters,  
Nothing else matters but you.
