I still remember when we first met

When you looked into my eyes

and all told me that you loved me.

But now i despise all those lies.

Dieing with a broken heart.

I loved you for your kindness.

But, you left me for her looks.

We had fallen in love, or so I thought.

But when you left,

I didn't shed my tearsâ€¦.not for you.

Not for you.

They told me you weren't worth my time

I told them we were in love.

You whispered in my ear, "You are the only one."

But I guess, to you, I'm not.

Every night I would think of you

Cause' I knew I'd got it right.

I had finally found my one true love

But now I'm not so sure.

If it's youâ€¦

I feel like a fool

Not to listen to my friends  
After they'd told me again and again.  
I was stupid to fall for you!  
To fall for you!  
I'd been crazy, not to see.  
You'd be happier, without me!  
When we first met all it took was a smile,  
To make my day light up.  
And fill the sky with rainbow colors.  
My heart was about to burst.  
When I was with YOU!  
When I was with YOU!  
Cause' I loved you with all my heart.  
But did you ever love me back?  
I'm no longer searching for the answer.  
Cause its over!!!!  
And now I'm sure; It's not you.
