Through the galaxies
Through the galaxies
Through the galaxies
Through the galaxies

Through the galaxies
Through the galaxies
Through the galaxies

Call back the cap-com, tick off the time bomb
Let felicity fly
Armor the airlock, blanket the bedrock
And kiss the planet goodbye

Dear God, I was terribly lost
When the galaxies crossed and the sun went dark
But dear God, You're the only North Star
I would follow this far

Through the galaxies
Through the galaxies
Through the galaxies
Through the galaxies

Through the galaxies
Through the galaxies
Through the galaxies

Fight back the flight deck, bring on the breakneck
Cue the solar eclipse
Summit the sunset, dovetail the dragnet
And blow your backbone to bits

Dear God, I was terribly lost
When the galaxies crossed and the sun went dark
But dear God, You're the only North Star
I would follow this far

Oh telescope, keep an eye on my only hope
Lest I blink and be swept off the narrow road
Hercules, you've got nothing to say to me
'Cause you're not the blinding light that I need

For He is the saving grace of the galaxies
He is the saving grace of the galaxies

Dear God, I was terribly lost
When the galaxies crossed and the sun went dark
But dear God, You're the only North Star
I would follow this far

I would follow this far
Through the galaxies
Through the galaxies
