Don't remind me
That some days I'm a windshield
And other days I'm just a lucky bug
As cold iron rails leave
Old mossy trails through the countryside

The crow and the bean field
Are my best friends but
Boy, I need a hug (Boy, I need a hug)
Cuz my heart stops without you
There's something about you
That makes me feel alive

(Chorus)

If the green left the grass on the other side
(I would make like a tree and leave)
But if I reached for your hand
Would your eyes get wide?
(Who knew the other side could be so green?)

Don't remind me
I'm a chickadee in love with the sky
But that's clearly not a lot to crow about
Cuz when the stars silhouette me
I'm scared they'll forget me
And flicker out

I chase honey but I haven't seen the hive
Yeah I didn't look, I didn't even try
But still my heart stops without you
'Cause there's something about you
That makes me feel alive

(Chorus)

We are honey and the bee

Backyard of butterflies surrounded me
I fell in love with you
Like bees to honey
So let's up
And leave the weeping
To the willow tree
And pour our tears in the sea

I swear
There's a lot of vegetables out there
That crop up for air
Yeah I never thought
We were two peas in a pod
Until you suddenly bloomed
Then I knew
That I'd always love you
(Oh I'd always love you too)

(Chorus x2)

And if I reached for your hand
For the rest of my life
(Who knew the other side could be so green?)
