If we could sit together a moment
And talk forever just to pass the time
I would smile as the shivers and chills
Run down my spine
And your eyes are locked on mine
Oh, we'll fill the metro skies with country air
And when you close your tired eyes
I'll meet you there

I'll meet you there
I'll meet you there
I'll meet you there
I'll meet you there
I'll meet you there
I'll meet you there
I'll meet you there

Deep inside of you
There's a ruby glow
And it gets brighter
Than you and I will ever know
There's a rushing sound
That surrounds us
When we walk alone
And it's everything we've never known

(Wonder down the street and I will be the pavement
beneath your feet)

If we could just be immobile for some time
And finally figure out the way we feel

About the missing puzzle pieces and cloudy question
marks
That still look a bit surreal
Oh, I tend to disappear
Here and there
So concentrate and you'll feel me
Everywhere
And we'll fill the metro skies with country air
If you're lost when you close your eyes
I'll meet you there

I'll meet you there
I'll meet you there
I'll meet you there
You could be anywhere
I'll meet you there
I'll meet you there
You could be anywhere
I'll meet you there
I'll meet you there
Open your eyes and see
You could be anywhere
Everything you can be
I'll meet you there
Open your eyes and see
You could be anywhere
Everything you can be
I'll meet you there
