I wish I was infinite and given my way
I'd be so fucking cool
When i'm feeling the rush
I look at you through different eyes.
I never knew my thoughts televise what you think
I'm the twin inside you

Its hard to believe what you say
uaccepting what you've tried to show us
and nothing can fix whats incomplete
cant get to us never get to us

refreshing memories of times we've known
constantly stumbling over reason where do these
words go
now so true covering no one esle but you
Stepping up to freak the day
devour every modern day

fell awake in my dizziness
I'm blinding

I wish I was obedient
arent I something
I'll never be rational
I'm finding my way to everyone in this velvet sky of
mine

Boredom does nothing for me
so why does it follow
walking with the deadbeats down the street
I want everything

I'll be your idol
be your maker
your everything
your dirty dream designer
Be your everything
