you cant escape what makes you tragic you know vicious cause you want to be leaving time possessed to please you what might have been was never the way you envisioned things so difficult to stop pretending what's this to you anyway

turn down the voluptuous keeping close to me again hold back your virtues you're fearless in motion

you found your way so why keep asking me nothing common suits you, you live again in solitary, look away for now, beautiful alone, now who decides to settle down maybe nobody really cares whats this to you anyway

turn down the voluptuous keeping close to me again hold back your virtues you're fearless in motion

something dirty's got you dear makes me want to be with you somethings painful's with you dear

makes me want to be with you

you're better off saying nothing, wish for a happy ending you're better off saying nothing repent so all's forgiven

something dirty's got you dear makes me want to be with you somethings painful's with you dear makes me want to be with you

something dirty's got you dear

makes me want to be with you somethings painful's with you dear makes me want to be with you

something dirty's got you dear makes me want to be with you somethings painful's with you dear makes me want to be with you
