Chorus:

I oughta be shot
For thinkin' that you could love me
I oughta be hung
For keepin' up my hopes
I got to be crazy
For thinkin' that it could work out
I oughta know better
I oughta let go

It's only Monday, and my heart's already broken
I had a feeling it was gonna be different this time
But you were just talkin', going through the motions
Yuo had no intentions of backin' up your lines

Chorus

Day after day brings night after night without sleeping
You keep me waitin' and you know what I'm waitin' for
Some kind of affection that I can believe in
You give me just a little, I want a little bit more

Chorus

Day after day brings night after night without sleeping
You keep me waitin' and you know what I'm waitin' for
Some kind of affection that I can believe in
You give me just a little, I want a little bit more

Chorus repeats 2x

I oughta know better, I just oughta let go
Man I've got to be crazy, some kind of fever
