It's Christmas and I miss you
Your memory
Still lingers on
You're not really gone
And this message
Will find you
Through space and time
This love lives on
Here and beyond
And I will hear you
When Christmas bells are ringing
I will touch you
Though we're far apart
And I will feel you
When I hear the voices singing
Like magic when I'm dreaming
You are here
An angel in my heart.
But it's Christmas and I miss you
How simple it used to be
Just you and me
But when the bells ring
I will hear you in the music
When the angels sing
It will be our song
I will call you
With a love across the ages
I find the words beyond the pages
To describe my love
But it's Christmas and I miss you
Bridge: No one can tell where this road will lead
I guess we should follow our hearts
I'm not sure of much, but I know one thing
Nothing can keep us apart
And I will hear you
When Christmas bells are ringing
I will touch you
Though we're far apart
And I will feel you
When I hear the voices singing
You're a shining star burning in my heart
And when the bells ring

I will hear you in the music
When the angels sing
It will be our song
And I will hold you
With a love across the ages
I find the words beyond the pages
To describe my love

It's Christmas and I miss you
