

38 Special "She Loves To Talk"

Visit "[She Loves To Talk](#)" on MotoLyrics.com

She wakes up in the mornin'
Puts her face on
Grabs a cup of coffee
Then she's on that phone

That woman loves to talk
(She loves to talk, talk)
Yeah, she's what I want
(She's what I want)

I don't mean to sound complainin'
She's my source of entertainment
That woman loves to talk

Conversation ain't no trouble
In this family
She keeps me stimulated
More than my new TV

That woman loves to talk
(She loves to talk, talk)
Yeah, she's what I want
(She's what I want)

She shoulda been a politician
Got more wind than an air condition
That woman loves to talk
(She loves to talk)

Well, I know she might be different, that's what I like
She's something else when we turn down the light
It's hard to resist her, it's hard to explain
I love to hear her voice when she calls my name

That woman loves to talk
(She loves to talk, talk)
Yeah, she's what I want
(She's what I want)

I wouldn't change a thing about her
Wouldn't live this life without her
That woman loves to talk

She could own Southern Bell
For as much as she talks
She gets her recreation
Makin' long distance calls

That woman loves to talk
(She loves to talk, talk)
Yeah, she's what I want
(She's what I want)

I don't mean to sound complainin'
She's my source of entertainment
That woman loves to talk
(She loves to talk)

Yeah, she talks about this
Sometimes she talks about that
Every operator knows her name and address
(She loves to talk)

Can you hold on, please
I'll check the line
I hope you got plenty
Of quarters and dimes

That woman loves to talk
(She loves to talk, talk)
Yeah, she's what I want
(She's what I want)

I wouldn't change a thing about her
Wouldn't live this life without her
That woman loves to talk
Yeah-e-yeah

She loves to talk, talk
She's what I want

I wouldn't change a thing about her
Wouldn't live this life without her
That woman loves to talk
(She loves to talk)

I wouldn't change a thing about her
Wouldn't live this life without her
That woman loves to talk

[Incomprehensible]
