Wake up with a call, throw my luggage in the hall
Go down to the desk, pay for alcohol
Jump into a car, hope we make the plane in time
Smile for all the ladies as we're passin' through the line

I'll be down in the back where those engines roar
Gonna make that attack on this town once more
Well, they say we're runnin' late to make it to the show
But when the lights go down, you can sure bet I'm
ready to go

Take 'em out
Kickin' up dust, make 'em jump and shout
Take 'em out, take 'em out
Rock 'n roll's what it's all about

Hit the stage runnin', got our motor's runnin' fast
Crankin' up our guitars, gonna kick some ass
Ain't no use in lyin', that's what we came to do
Give 'em all we got to make our message get through

I'll be down in the back where those engines roar
Gonna make that attack, gonna start once more
People stand in line, waitin' for the show
But when the lights go down, you can sure bet I'm
ready to go

Take 'em out
Kickin' up dust, make 'em jump and shout
Take 'em out, take 'em out
Rock 'n roll's what it's all about

Love to play New York where the people's got some
heart
Got Lennon's dedication down in Central Park
Finest looking women that I've ever seen
You know they'll love the band 'cause we'll be soundin'
real mean

I'll be down in the back where those engines roar
Gonna make that attack on this town once more
Well, they said we're runnin' late to make it to the show

But when the lights go down, you can sure bet I'm
ready to go

Take 'em out
Kickin' up dust, make 'em jump and shout
Take 'em out, take 'em out
Rock 'n roll is what it's all about

Take 'em out, take 'em out
Kickin' up dust, make 'em jump and shout
Take 'em out, take 'em out
Rock 'n roll's what we're all about

Take 'em out, take 'em out
Take 'em out, take 'em out

Take 'em out, take 'em out
Rock 'n roll's what it's all about
Take 'em out, take 'em out
Kickin' up, kickin' up, jump and shout

Take 'em out, take 'em out
Rock 'n roll's what it's all about
Take 'em out, take 'em out
Kickin' up dust, make 'em jump and shout
