[Verse 1]

Let me start by sayin this love is no fantasy
I'm just here to fulfill all your fantasies tonight, what
ever it takes to turn you on
(and don't worry) You here with me (take advantage)
com closer please (watch me get manish)
How could something so wrong feel so right
Cant worry bout it tonight

[Chorus]

If these 4 walls could conversate their might be more
They'd tell all about your?(ooh it got me hooked on
you)
We both know these 4 walls can not talk
So let's make love
You should know what done in the dark shall always
Come to light, not tonight it feels right
We both know these 4 walls can not talk so let make
love

[Verse 2]

Let forget about the past cause all that is history
Focus on now tonight girl its you and me
So please turn off the phones and take off your clothes
(and thinking) possibly you and me were ment to be
But circumstances for my relationships make it hard
for me
I cant think about her with this sexy brown skin in my
face, say ooh

[Chorus]

Aye, All around the world, fellas fellas fellas
This what I need you to do
If you want that woman tonight, and you know she got a
man
This what I want you to tell her
Say this right hurr this what I want you to say, say this
