Verse One: Puffy

When night falls, that's when it all begins
Be prepared we can allow no loose ends
I highly recommend ya'll bring your arms
This is no false alarm
They want to do us harm
Like I'm nervous, live inside a glass house
They want to bring us down
Then drag us out
It's all about niggas that doubt our reputation
Start'n conflict and don't know what they facing
Want twist us all in there black magic
? suggest paper of wars and break havoc
Are u ready, don't sleep on them
Ain't petty, you get that ass thrown like infedy
Meet me at the getaway spot in a jiffy
Leave all the does behind that act iffy
We got maneuvers, that's hard to beat
Till the other side retreats
Under six feet beneath
C'mon

Verse Two: Mark Curry

I told u that is a saw I wore
I'm a kill
When the rebel yells song that don't stop till
It's done, see I got guns and I m sick
See how you said meet me here and I came quick
Them same catz on the most wanted list
We can hit them, Then straight disappear in the mist
?, Won't cease to exist
I shoot to kill and I'll be damned if I miss
A warrior waiting for Armageddon
I get serious as hell when I'm threatened
Intent to get hostile break into a rage of fury
Send them back their apostle's fossils and crazed right
A rude awakening and but now I'm alert
And that's right down my line of work
The whole Brotherhood new verse, gutless cowards
with no back
And watch how they all fall flat

Ahh
Chorus:
Niggas gone fall out
The got us up against the wall
Here I call out, let it all out
With or without you I'm for war
