(feat. Brandy)

(baby ...baby .. baby)

[Brandy:]

Take a good look at me
I done cried from the lies
That hurt so bad inside, I can't even think
Ain't never had nuthin to me
Brinh me down to the core
Till i hit the paint
Here to show you a compromise of heart
For I'm fallin apart
Till there no remains
What had me thinking ya word was your bond
Don't ya know
Didn't have to call it love if you knew that the situation
You wasn't ready 4
I could see if your feelings have changed but damn
you slammed the door
Only the one thing you said you put down ya whole life
for
I can comprehend the deck of cards you dealt me.

[Brandy:]

How can you turn on me
(how can you how can you)
How can you purposely
(how can you how can you)

[(chorus) Brandy:]

Lessoned learned house can burn were close to heat
Betcha words don't mean nothing to me
Thought you said thought you said that you loved me
Thought you said thought you said that you need me
Thought you said thought you said you complete me
Thought you said thought you said you were never
gonna let it go
Thought you said thought you said wen you held me
Thought you said thought you said when'd you tell me
Thought you said thought you said no one else could
replace me
Thought you said thought you said that your never

gonna let it go

[Diddy:]

The times that you werent there
The times that you left me here
The times that I needed you
You know my love is true
My passions inside for you
The nights that I cried for you
A man has these feelings too
Same shit that chall go thru
I been here before
Sometimes the pain you ignore
Until it's right at your door
And then you just can't no more
Why does love feel this way
Why does it hurt so bad

[Diddy:]

Cant even look me in the face
Why does love hurt this way

[Brandy:]

How can you turn on me
(how can you how can you)
How can you purposely
(how can you how can you)

[(chorus) Brandy:]

Lessoned learned house can burn were close to heart
Betcha words don't mean nothing to me
Thought you said, thought you said that you loved me
Thought you said thought you said that you need me
Thought you said thought you said you complete me
Thought you said thought you said you were never
gonna let it go
Thought you said thought you said when you held me
Thought you said thought you said when'd you tell me
Thought you said thought you said no one else could
replace me
Thought you said thought you said that you never
gonna let it go

[Diddy:]

The heartache and pain
Sometimes it goes to your brain
Sometimes it makes you insane
Sometimes our joy is our pain
'cause it tears u apart these affairs of the heart
I think im strong but im not
And when i look in ya eyes you know it kills me inside

But I can't wait for that day that you come back to me
girl
After we both go away it's just to see if it's real
There's no denying the fact it's meant to be
If you let it go and then they come back.
If this is our last dance we need to practice our steps,
The situation I left behind but your hearts what I kept,
You said I did you wrong you did me wrong we was
both at fault
And of course you lost me with your alibis and all of
your talking
And most important I just question my self

[Brandy:]

The pain is taking over I can't believe
(I need your hand)
What happened then compared to now is dreams
(I need your hand)
And I know now that you'll - me

[Diddy:]

I can't sleep, I can't breathe, I aint eat in days, stomach
pains from arguing
Didn't you cheat on me that's how the problems started
And as far as im concerned we learned our lesson
Well it's all in the healing and that process has got me
stressin
Im so pressured i'm so physically drained
I aint thinkin straight I loved you more than my own self
Although I couldnt bear the pain of seein my old self
Young wild uncontroled self
I love you grl I don't need no one else

[(chorus) Brandy:]

Lessoned learned house can burn were close to heart
Betcha words don't mean nothing to me
Thought you said, thought you said that you loved me
Thought you said, thought you said that you need me
Thought you said, thought you said complete me
Thought you said, thought you said you were never
gonna let it go
Thought you said, thought you said when you held me
Thought you said, thought you said when'd you tell me
Thought you said, thought you said no one else could
replace me
Thought you said, thought you said that you never
gonna let it go

[Diddy:]

When I look in your eyes you know it kills me inside

[Brandy:]
Didn't you, didn't you, didn't you, didn't you, oo ooo

[Brandy:]
Lesson learned
House can burn
We close to heat
Bet your words don't mean nothing to me

[Diddy:]
These affairs of the heart I think i'm strong but im not

[Brandy:]
Thought you said thought you said that you love me
Thought you said thought you said that you need me

[Diddy:]
Come back to me girl

[Brandy:]
How can you how can you
Thought you said thought you said you complete me
Thought you said thought you said you were never
gonna let it go
