Stick 'em up as we proceed
Stick 'em up motherfuckers
To give you what you need
Put your hands in the air

It's star time
(Bring the fire along, c'mon)
We still here
(Bring the fire along, c'mon)
It's star time
(Bad Boy, M.O.P., Busta Rhymes)
Motherfuckers
Yeah, c'mon

I'm the definition of, fuck it y'all already know
I stack heavy doe, sell out every show
It'll never die, we live
And we gon' stay big time 'til it's time to see Big
(B.I.G. forever)

Get a grip, Bad Boy never slip
We, runnin' strips while y'all runnin' lips
Haters wanna stop my lute
They don't want me wearing Sean John

They want me wearing lawn suits
P.D. increase the heat in ya streets
Keep ya tapes on rewind, CD's on repeat
My mental, more older, jewellery, more colder
Got a lot like its '97 all over

You know what I came to do, change the rules
Even when I stand still I'm makin' moves
I, paid my dues as soon as I stepped in
P. Diddy a.k.a. News at Eleven

Throw your hands up in the air now
We're gonna hit you with the heat for the streets
Throw your hands up in the air now
We won't stop, it's Bad Boy for life

Throw your hands up in the air now
We're gonna hit you with the heat for the streets
Throw your hands up in the air now
We won't stop, it's Bad Boy for life

M.O.P.

Catch me walking on the wildness side of your block
Yo, I bang mine, niggas showing me hood
Love throwing up gang signs
(Yo, is that who I think it is?)

You see it, Brooklyn Military remains in blazin'
Respect our hood because the clove is a ghetto
But niggas start switchin' like hoes in stilettos
(It's Lil' Fame and them)

Remember them niggas from the hill up
In Brownsville
We still bangin' 'em
Ahh

Sound the alarm
It's the first family and we're back to drop bombs,
boom
(Napalm)
Nuke those justice, it's the worlds famous
Fast Caress' street

Vow, to keep the homies proud in the street
To make our music loud and stomp over beats
Like, there you go
(Ba ba bom bom ba bom bom)
Yeah, we ain't goin' nowhere

Throw your hands up in the air now
We're gonna hit you with the heat for the streets
Throw your hands up in the air now
We won't stop, it's Bad Boy for life

Throw your hands up in the air now
We're gonna hit you with the heat for the streets
Throw your hands up in the air now
We won't stop, it's Bad Boy for life

Niggas put a hundred grand up
Stand up, before I stick your bitch-ass you better put
your hands up
Hate if you want and front like you ain't wit' it, nigga
I bust your motherfucking head with a skillet, nigga
More rugged nigga, heat for the track

I'm like a Pick-up truck with broken concrete in the back
Now let me add a couple G's to the stack
I know we got you dumb and how we put this together
And run when you didn't even see it coming
Back the fire armor and pop your car

Nigga watch me shatter your windshield with a rock
guitar
We be them zero tolerance niggas
I'll turn on your ass, bitch
And melt you niggas like a fire, burnin' yo' ass bitch

Relax bitch, the fact is we trifle with heat
With cycles with lyrics right from the street
I'm sayin', "As we come through, put the shit down"
Soldiers get up, faggot niggas need to sit down, what?

Throw your hands up in the air now
We're gonna hit you with the heat for the streets
Throw your hands up in the air now
We won't stop, it's Bad Boy for life

Throw your hands up in the air now
We're gonna hit you with the heat for the streets
Throw your hands up in the air now
We won't stop, it's Bad Boy for life
