I'm all alone tonight,
Waiting for the sun to shine.
Starting all over again.

I'm breakin' away,
Lookin' to the other way
Where life could be much better.

Will I ever let you bring me down?
Now it's over, I'm finally movin' on.
I won't let you, let you bring me down.

I've finally seen the light,
Thought that I was larger than life.
It's all just wishful thinking.

I'm takin' a flight
On the brighter side,
'Cause life just don't come easy.

Will I ever let you bring me down?
Now it's over, I'm finally movin' on.
I won't let you...

Will I ever let you bring me down?
Now it's over, I'm finally movin' on.
I won't let you, let you bring me down.

Bring me down...
Bring me down...
Ohhh.... ohhh...

Will I ever let you bring me down?
Now it's over, I'm finally movin' on.
I won't let you...

Will I ever let you bring me down?
Now it's over, I'm finally movin' on.
I won't let you, let you bring me down.
