Rock'n'roll is lost in the chaos of business,  
Uncle S(h)am(e) is buying everything he can,  
Dollar ownership, dictatorship of power,  
Let's keep hope in standardization of music.  
Mass-media's promotion leads to victory,  
Firms bet with millions bucks on it.  
You've gotta better look back ashamed.

Forget rock'n'roll, the music sells it's way too often;  
Let's say rotten roll, industrialization's solving the  
problem.

What happened to the original spirit,  
A lot of examples can make you have an idea on it,  
Contracts with plenty of "zeros" are signed everyday,  
Without any whispers, without any words or tears.  
Mass-media's promotion leads to victory,  
Firms bet with millions bucks on it.  
You've gotta better look back ashamed.

Forget rock'n'roll, the music sells it's way too often;  
Let's say rotten roll, industrialization's solving the  
problem.

Rock!

Forget rock'n'roll, the music sells it's way too often;  
Let's say rotten roll, industrialization's solving the  
problem.
