(Strike back)

Brightness is inside our minds,
No reason to give up, press rewind,
Nothing to fear, we're standing here.
Wherever you are we lead the fight,
Darkness' not close, hit restart,
Nothing to fear, we're standing here.

It's time to realize, no way to compromise
And you will discover that we won't let you down.
I know we'll have the time to think back and remind,
And you will remember, no reason to suffer.

(Strike back)

Brightness is inside our minds,
No reason to give up, press rewind,
Nothing to fear, we're standing here.
Wherever you are we lead the fight,
Darkness' not close, hit restart,
Nothing to fear, we're standing here.

Future is in your soul, past is erased and gone,
No reason to disappear, we aren't yet in tears.
Even when you feel down, hold on open your eyes,
Breath still here, vigour standing,
No way to be leaving.

(Strike back)

Brightness is inside our minds,
No reason to give up, press rewind,
Nothing to fear, we're standing here.
Wherever you are we lead the fight,
Darkness' not close, hit restart,
Nothing to fear, we're standing here.
