Brothers & Sisters

We're gonna draw the line

To forget about the problems abroad

But in the end we all have problems of our own

Gangs, crack, racism and many people don't have  
hope

It probably don't matter much to you

In the struggles, the time that we live

But you don't know your future

So you better take time to give

Who's gonna draw the line?

We're gonna draw the line

Together, forever and ever

You must be thinking, I can't do a thing

But look at me I help when I sing

Where man can make a difference

Like Caesar, Chavez and doctor King

We all have the ability to release a positive capability

Where the youth is our responsibility

It's time to take a stand

Who's gonna draw the line?

We're gonna draw the line

Together, forever and ever

Brothers & Sisters

We're gonna draw the line to make people change

But yo I'm optimistic, down with positivity

This is a struggle so prepare to fight

Who's gonna draw the line?

We're gonna draw the line

Together, forever and ever
