Take your time, recline and make your mind up
I feel fine, so I'm gonna wind up
Here's the pitch, check the switch, now watch me
hit you right to this, while I pursue this
desire, to get you, on up to step to
rhythms and rhymes, cause I respect you
Unless you're a biting one, a non-writing one
Reciting some of my lines, although you are blind
you'll see my shadow, rather my silhouette
But I'll be glad though, knowin your pillow's wet
And that you're upset, cause you thought you brought
the answer -- to this dilemma in rap but I'll vamp you

Pure is my thought, my spirit is my heart
I shall embark to spark my fine art
of oratory wisdom, emcees I quiz them
on terms and techniques, then I'll wreck each with

I win the science fair, so you don't you try and scare

Put a bib on you, and feed you in-stan-taneously
Rhymes that'll be, famous from me
The Keith double-E, cause you're a faker
And I will take the mic from you and make the
brothers and sisters unite, while we relate the

I'm glowin with intensity, cause I've been sent to G
off as your boss, because you lack identity
You're quite immature and, you sound very boring
Like a raft I'll bring you back, up onto the shore and
give you time to dry out, while I just try out
my hunch that with one punch, yo I could put that eye
out
But violence, is never my first choice
I use my voice to make you rejoice
In agreement with our program, cause there is no man
Who can give you more of this, and you can be sure of
this
fact that I'm exact, cause I got it down pat
We are scholars risin, we're exercisin our
