So why don't you come with me?
Take a trip to the other side
Where you, you and I, we can sing, we can fly
We can dance as the stars go by

And if the heavens should open up
With a vision inside Jah love
The earth and the moon and the sun will align
With the voice from the sky above, one love

So come on and shine with me
Like the beautiful star you are
So come on and shine with me
Shine with me

Float through the sky and look through my eyes
And then you will see what happens
Nowhere to hide, look deep down inside
In life you must take your chances

And come with me
And you will see
My love is like

La, la, la, la, la, la, la, la, la, la
La, la, la, la, la, la, la

La, la, la, la, la, la, la, la, la, la
La, la, la, la, la, la, la

And come with me
And you will see
One love

So come on and shine with me
Like the beautiful star you are
And leave it behind with me
'Cause forever is not that far

So come on and shine with me
Like the beautiful star you are
And leave it behind with me

Shine with me

Shine on, shine on, shine on, one love
Shine on, shine on, shine on, one love
Shine on, shine on, shine on, one love
Shine on, shine on, shine on, one love

So come on and shine with me
Like the beautiful star you are
And leave it behind with me
'Cause forever is not that far

So come on and shine with me
Like the beautiful star you are
And leave it behind with me
And shine with me
Shine with me, shine with me
