Nobody move, nobody gets hurt for all it's worth
State of Emergency, red alert
I'm takin' you for your currency
Service these stocks and bonds
Through off-shore accounts from Cuba to Taiwan
(But it's already poppin')

'Bout to flip the script on these poli-tricks
(Profit for the hood)
So I can chisel the government
(Who's runnin' this?)
Son dread from playa's callin' shots
(Callin' all blocks)
Come, clap your hands off the timing
(Run these streets)

Money fallin' down like rain
(Let's run these streets)
The hoods cashin' into a back pay
(Let's run these streets)
It's time to come up with our fists
Soul stealer from the rock and makin' everybody rich

The payback, it's the payback
Come, follow me and we can all get paid
The payback, it's the payback
We makin' money fallin' down like rain

The payback, it's the payback
Come, follow me and we can all get paid
The payback, it's the payback
Top of the world and all the payback

Nobody move, nobody gets hurt for all it's worth
Payin' back the streets all they deserve
(Poverty was meant to keep the people oppressed)
That's why operation Mr. BG is now the progress

(Like a fool said)
Take a dip to his mansion and gate-nap this cat
And make the call for his ransom
(What you askin'?)

The plan is, you will deliver
Every family in America about six figures

(You're still richer)
With more money than you can spend
(You're still richer)
With more money than you can lend

(You're still richer)
And just pretend all ya need
Give it all to the community
But hey, that's just me

The payback, it's the payback
Come, follow me and we can all get paid
The payback, it's the payback
We makin' money fallin' down like rain

The payback, it's the payback
Come, follow me and we can all get paid
The payback, it's the payback
Top of the world and all the payback

Nobody move, nobody move

Nobody move, nobody gets hurt
Nobody move, nobody gets hurt
Nobody move, nobody gets hurt
Nobody move, nobody gets hurt

Nobody, nobody body gets hurt
Nobody move, nobody gets hurt
Nobody, nobody body gets hurt
Nobody move

The payback, it's the payback
Come, follow me and we can all get paid
The payback, it's the payback
We makin' money fallin' down like rain

The payback, it's the payback
Come, follow me and we can all get paid
The payback, it's the payback
Top of the world and all the payback
