I man a mad stylee, underground
We come cool and deadly with that natural sound
It make you feel so free, you no turn it down
Vibes 619, from the Southtown
And Jah know, what I and I wanna do
Because Jah know, I am man stay true
You know Jah know, the real who is who
Ain't no time to fake it, make it feel brand new

It goes 1,2,3. The crew is called P.O.D.
And if you wanna go to the tip top
Break it down, with that one drop - Whyoo

Execute the sounds, and positive come around
Impact the sounds, positive all around
Execute the sounds, and positive come around
Impact the sounds, positive all around

Now why mess me, try to take this crown.
Babylon test we, me go smash 'em down
Original O.G. this is my playground
No take me seriously, you gonna feel it now
I man, know the harder they come
Because I man, I gonna get the job done
You know I man know they don't want none
Me never have to cheat cause me already won.

1904, home to the real hardcore.
And you don't want to sleep, don't talk
I'll break you down with that one drop - Whyoo

Execute the sounds, and positive come around
Impact the sounds, positive all around
Execute the sounds, and positive come around
Impact the sounds, positive all around

Execute the sounds, and positive come around
Impact the sounds, positive all around
Execute the sounds, and positive come around
Impact the sounds, positive all around
