"Calm Down"

Visit "[Calm Down](#)" on MotoLyrics.com

The truth walks home all alone
covered in mud
silk screen and frost
enter the gate with old tireds
a building block for building lies
under my skin

calm down, calm down its alright
calm down your still just alright
theres a better way
i can feel your getting nervous

so you decide to abort
being lost and unsure
well focus in on my dream
until the day i retire
i said boy ill be giving for awhile
taped to the rules

calm down, calm down its alright
calm down your still just alright
theres a better way
i can feel your getting nervous
